Need help? Tap the AI Assistant button (✦) anywhere in the app for instant guidance, or email **help@opervo.io**.

SECTION 00 — GETTING STARTED

ADD TO HOME SCREEN

INSTALL OPERVO AS AN APP ON YOUR PHONE

Opervo is a Progressive Web App (PWA) — no App Store download needed. Add it to your home screen in under a minute and it runs just like a native app: full screen, fast, and always up to date.

IPHONE & IPAD

Using Safari

1. **Open Safari**
   Navigate to **app.opervo.io** in Safari. This must be Safari — Chrome on iOS does not support Add to Home Screen.
2. **Tap the Share button**
   Tap the Share icon at the bottom of your screen — it looks like a box with an arrow pointing up.
3. **Tap 'Add to Home Screen'**
   Scroll down in the share sheet and tap **Add to Home Screen**.
4. **Name it & tap Add**
   The name will default to 'Opervo' — tap **Add** in the top right corner.
5. **Done**
   The Opervo icon now appears on your home screen. Tap it to launch the app in full-screen mode, no browser bar.

ANDROID

Using Chrome

1. **Open Chrome**
   Navigate to **app.opervo.io** in Chrome. Other browsers may work but Chrome is recommended.
2. **Tap the menu**
   Tap the three-dot menu (⋮) in the top-right corner of Chrome.
3. **Tap 'Add to Home screen'**
   Select **Add to Home screen** from the dropdown menu.
4. **Tap Add**
   Confirm by tapping **Add** when prompted. The icon will be placed on your home screen.
5. **Done**
   Opervo is now on your home screen and runs like a native app — full screen, no browser chrome.

✦ **Why no App Store?** Opervo is a PWA — it installs directly from the browser with zero friction, updates automatically, and takes up almost no storage. You get the full native-app experience without the wait.

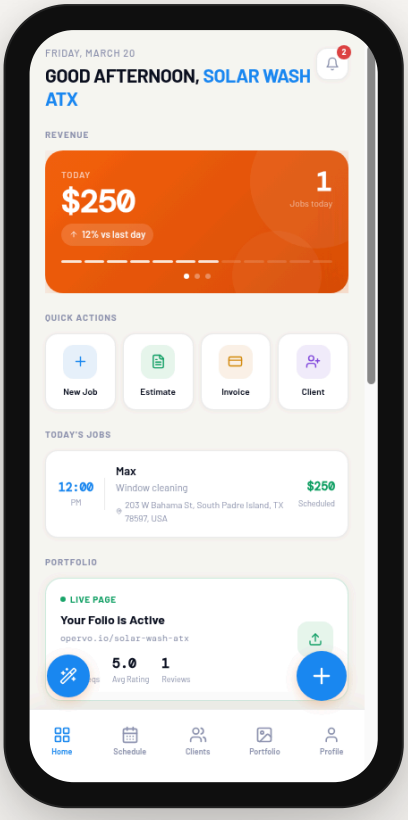
SECTION 01

DASHBOARD

YOUR HOME BASE

The Dashboard is the first screen you see after logging in — a real-time snapshot of your business revenue, today's jobs, and portfolio status.

- **Revenue Carousel** — Swipe through Today, This Week, and This Month revenue cards with comparison to the previous period.
- **Quick Actions** — Tap New Job, Estimate, Invoice, or Client to jump straight into creating one.
- **Today's Jobs** — Every job scheduled for today — client name, service type, time, address, and price at a glance.
- **Portfolio Status** — Shows whether your public Folio page is live, your average rating, and review count.
- **Notification Bell** — Top-right badge shows unread notifications so nothing slips through.



Dashboard — revenue card, quick actions, today's jobs, portfolio status

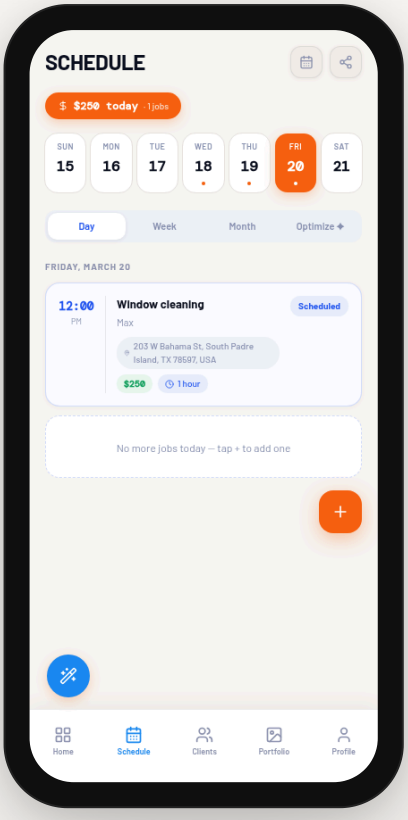
SECTION 02

SCHEDULE

PLAN YOUR WEEK

The Schedule page lays out all your jobs and tasks across Day, Week, and Month views — with route optimization built in.

- **Week Strip** — Scroll through dates; dots indicate days with jobs. Tap a date to view that day's schedule.
- **Day / Week / Month Views** — Toggle between views using the segmented control at the top.
- **Optimize Route** — On Day view, tap 'Optimize' to see a map-based route of your jobs for that day.
- **Job Cards** — Each card shows time, service type, client, address, price, and current status.
- **Add Tasks** — Tap the + button to add personal tasks (errands, reminders) alongside your jobs.
- **Google Calendar Sync** — Connect your Google Calendar from Profile → Settings to sync all jobs automatically.



Schedule — week strip, day view with job cards

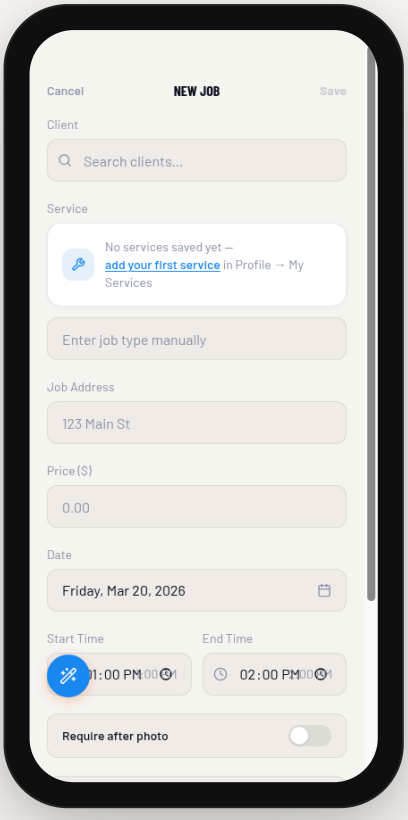
SECTION 03

JOB MANAGEMENT

CREATE & TRACK JOBS

Jobs are the core of Opervo. Create, schedule, and track every job from first booking to final invoice — all from your phone.

- **Client** — Search existing clients or add a new one inline without leaving the form.
- **Service** — Pick from your saved services catalog or type a custom service name.
- **Address** — Enter the job location with autocomplete support.
- **Recurrence** — Set recurring schedules (weekly, biweekly, monthly) — Opervo handles the rest automatically.
- **Require After Photo** — Toggle on to enforce a completion photo before a job can be marked done.
- **Status Updates** — Tap to move jobs through Scheduled → En Route → In Progress → Completed.



New Job form — client, service, address, price, date & time

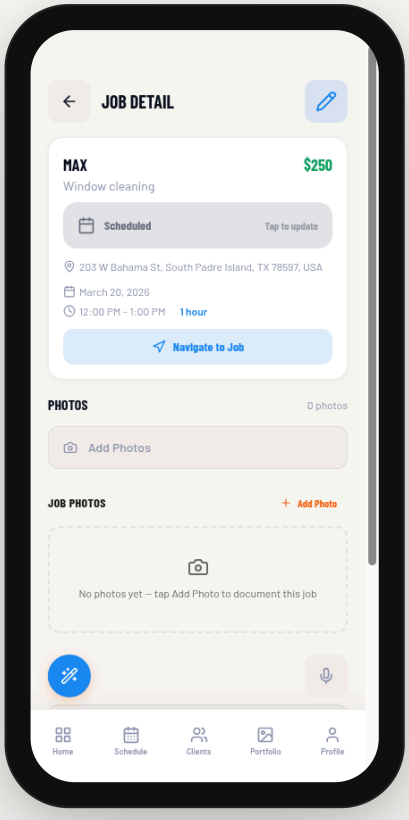
SECTION 04

JOB DETAIL

EVERYTHING ABOUT A JOB

The Job Detail view gives you everything you need to execute a job — navigation, photos, checklist, time tracking, and quick actions all in one place.

- **Navigate to Job** — Opens Apple Maps, Google Maps, or Waze pre-loaded with the job address.
- **Photos** — Capture before, during, and after photos. Required if 'Require After Photo' is enabled.
- **Checklist** — Add task items to track per-job steps. Check them off as you go.
- **Clock In/Out** — Track time spent on each job for accurate labor-cost analysis.
- **Quick Actions** — Invoice the client, request a review, or send a report directly from the job detail screen.



Job Detail — status, navigation, photos, checklist

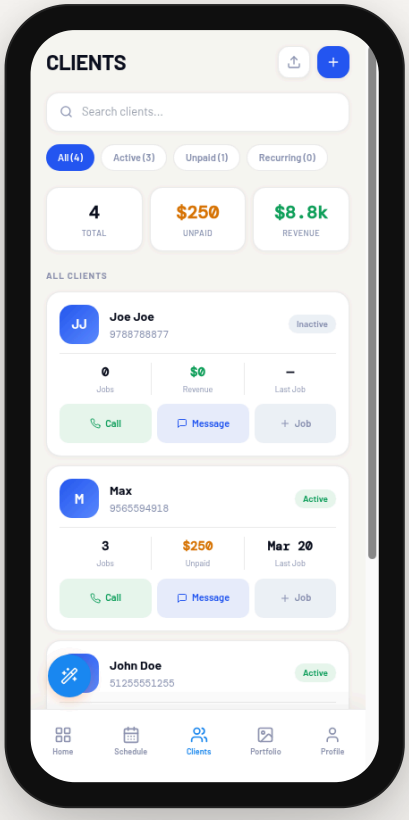
SECTION 05

CLIENT MANAGEMENT

YOUR CRM

Keep all your client information organized in one place. Filter, search, and take action on any client in seconds.

- **Search & Filter** — Search by name. Filter by All, Active, Unpaid, or Recurring clients.
- **Stats Bar** — Total clients, unpaid balance, and total revenue at a glance.
- **Client Cards** — Each card shows job count, revenue, last job date, and quick actions: Call, Message, + Job.
- **Import Clients** — Bulk import from a CSV file using the import button at the top.
- **Client Profile** — Tap any client to see full history: jobs, invoices, photos, and notes.
- **Client Portal** — Send clients a secure portal link so they can view their job history and invoices anytime.



Clients list — search, filters, stats, and client cards with quick actions

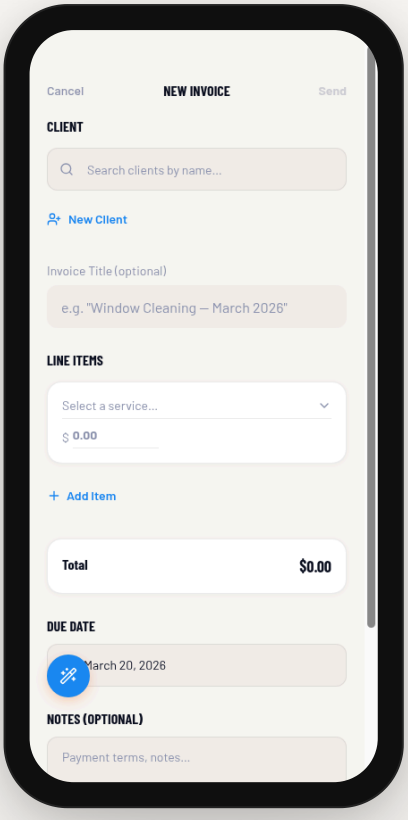
SECTION 06

INVOICING

GET PAID FAST

Create professional invoices and send them via SMS, Email, or shareable link. Payments are processed securely through Stripe.

- **Line Items** — Add multiple items with descriptions and amounts. Pick from saved services or type custom.
- **Due Date** — Set when payment is due using the calendar picker.
- **Send Via** — Choose SMS, Email, or Copy Link. Email sends a branded invoice via Resend. SMS pre-fills a payment link in your messaging app.
- **Stripe Payments** — Clients pay through a secure Stripe checkout page. You get notified the moment they pay.
- **Invoice Tracking** — Track status through Sent → Viewed → Paid. See all invoices in the Invoices list.



New Invoice — client, line items, total, due date, delivery method

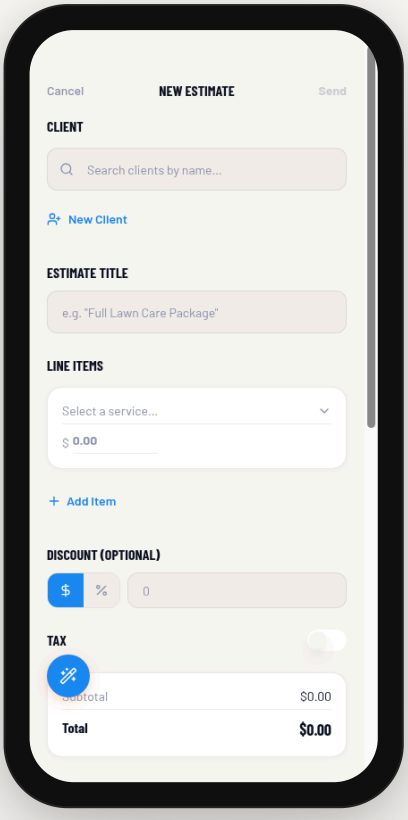
SECTION 07

ESTIMATES

WIN MORE WORK

Send polished estimates to potential clients. They can accept or decline directly from the link you share — no back-and-forth required.

- **Line Items** — Add services with prices. Apply optional discounts ($ or %) and tax.
- **Photos** — Attach photos to show the scope of work and build client confidence.
- **Terms & Conditions** — Add your terms — displayed to the client directly on the estimate page.
- **Expiry Date** — Set a deadline for the client to accept, creating urgency without pressure.
- **Client Response** — Clients can Accept or Decline. If declined, they provide a reason. You get notified either way.
- **Convert to Job** — Once accepted, convert the estimate to a scheduled job with one tap.



New Estimate — line items, discount, tax, photos, terms

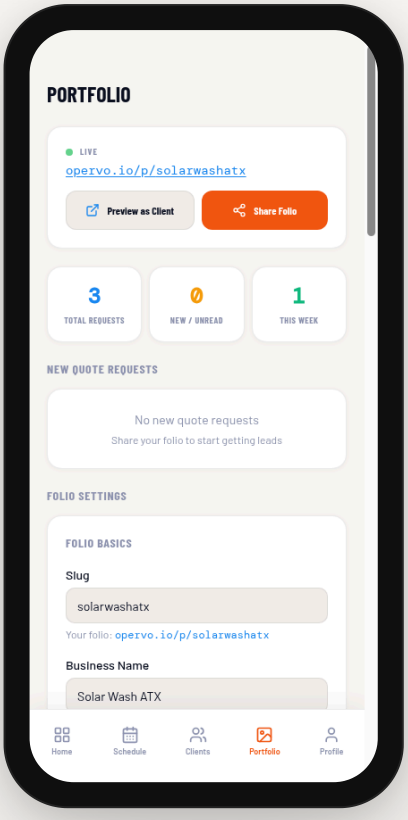
SECTION 08

PORTFOLIO (FOLIO)

SHOWCASE YOUR WORK

Your Folio is a public webpage that showcases your business, services, gallery, and reviews. Share it with potential clients to win more work before they ever call.

- **Live URL** — Your Folio is accessible at opervo.io/p/your-slug. Share it anywhere — tap card, social media, Google Business.
- **Preview as Client** — See exactly what clients see when they visit your Folio page.
- **Quote Requests** — Clients can request quotes directly from your Folio. You get notified and respond from the app.
- **Gallery** — Upload before/after photos. Drag to reorder. These appear on your public page automatically.
- **Reviews** — Client reviews show up automatically on your Folio as they come in.
- **Settings** — Customize your slug, business name, tagline, hero photo, and brand color.



Portfolio settings — live status, slug, business info, quote request stats

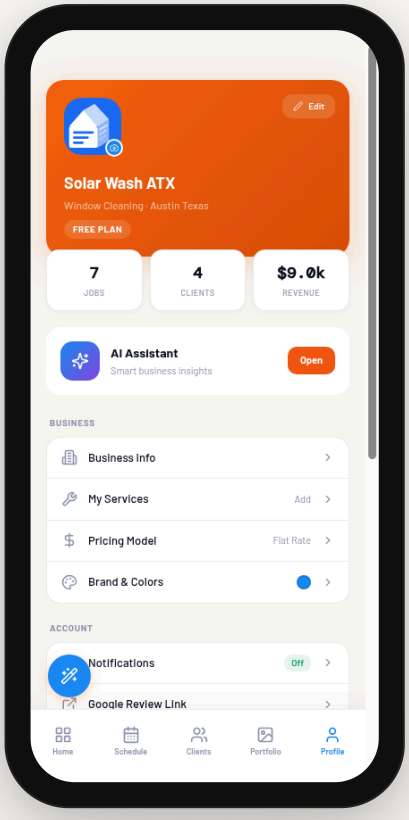
SECTION 09

PROFILE & SETTINGS

YOUR BUSINESS IDENTITY

Manage your business identity, services catalog, pricing model, brand colors, and account settings all in one place.

- **Business Card** — Shows your logo, business name, trade, location, and current plan status.
- **AI Assistant** — Tap 'Open' to get smart business insights and voice commands for hands-free operation.
- **My Services** — Create and manage your services catalog with names, prices, and unit types.
- **Pricing Model** — Set your default pricing model: Flat Rate, Hourly, or Per Unit.
- **Brand & Colors** — Pick your brand accent color — this colors your Folio and in-app accents.
- **Google Review Link** — Connect your Google Business review link to make requesting reviews effortless.
- **Stripe Connect** — Link your Stripe account to accept payments on invoices through the app.



Profile — business card, stats, AI assistant, and settings menu

SECTION 10

AI ASSISTANT

SMART HELP ON-DEMAND

Opervo includes a built-in AI assistant that understands your business context. Access it from the floating button or the Profile page.

- **Voice Commands** — Tap the microphone and speak naturally: 'Create a job for Max tomorrow at 2pm' or 'Invoice Sarah $300 for gutter cleaning'.
- **Smart Suggestions** — The assistant can suggest next steps, draft invoices, or help you plan your day.
- **Business Insights** — Ask 'How much did I earn this week?' or 'Who are my top clients?' and get instant answers.
- **Quick Navigation** — Say 'Go to my clients' or 'Open invoices' to navigate instantly without tapping.

SECTION 11

EXPENSES & MILEAGE

TRACK COSTS & DEDUCTIONS

Track every business expense and driving mile to maximize your tax deductions and understand your true profitability.

- **Log Expenses** — Add expenses with amount, category, date, and optional receipt photo.
- **Categories** — Materials, Equipment, Fuel, Insurance, and fully custom categories.
- **Link to Jobs** — Associate expenses with specific jobs for accurate per-job profitability tracking.
- **Log Trips** — Record start/end locations, distance, and purpose for every drive.
- **Live Mileage Tracking** — Start a drive tracker to automatically log miles using GPS.
- **IRS Deduction** — Calculates your tax deduction automatically using the current IRS mileage rate.

SECTION 12

TEAM MANAGEMENT

GROW YOUR CREW

Invite team members, assign jobs, and track crew performance — all from your phone. Built for the moment you're ready to scale.

- **Invite Members** — Send email invitations to your team. They create an account and join your crew instantly.
- **Assign Jobs** — When creating or editing a job, assign it to a specific team member.
- **Team Dashboard** — View all team members, their assigned jobs, and completion rates.
- **Clock Tracking** — Team members can clock in/out of jobs for accurate time and labor-cost tracking.
- **Permissions** — Control what each team member can see and do within the app.
